Summary

Java Backend Developer with **3 years of hands-on experience** in **Java**, **Spring Boot**, and **Microservices architecture** within enterprise Java applications. Proficient in **Spring Boot backend development**, **RESTful API design**, **SQL-based data processing**, and secure authentication using **JWT** and **OAuth 2.0**. Experienced in building **scalable backend services**, integrating databases, and supporting **CI/CD-driven deployments** in **Agile environments**.

Work Experience

LabVantage Solutions Pvt. Ltd.

Aug 2023 – Present

Associate Software Engineer

- Developed scalable microservices-based backend applications using **Java**, **Spring Boot** and **Spring MVC** within enterprise **Healthcare System**.
- Implemented **RESTful APIs** using **Spring Boot**, with structured request validation, centralized **exception handling**, and comprehensive API documentation, improving system integration efficiency by **30%**.
- Implemented **JWT** and **OAuth 2.0**-based authentication and authorization, improving application security and access control.
- Built backend business logic and handled database operations using **Hibernate**, **JPA**, **JDBC**, and **SQL**, ensuring efficient data processing and performance optimization, reducing query execution time by **25%**.
- Worked closely with cross-functional teams in an **Agile/Scrum environment**, contributing to sprint deliverables and participating in **User Acceptance Testing (UAT)**.
- Supported **CI/CD pipelines** and deployment activities, ensuring stable releases and streamlined delivery processes.

LabVantage Solutions Pvt. Ltd.

Jan 2023 – Jul 2023

Associate Software Engineer Trainee

- Completed intensive training in **Java**, **JavaScript**, **SQL**, **AJAX**, **Spring Framework**, **JavaScript** with hands-on enterprise-level application development.
- Gained hands-on exposure to the **LabVantage Product**, including basic configuration and customization using **Java**, **JSP**, and **JavaScript** and also assisted in developing backend business logic and writing optimized **SQL queries** for data processing.

Technical Skills

Backend & Languages: Java, C++, Spring Boot, Spring MVC, Hibernate, JPA, Microservices, Kafka, REST APIs

Frontend: JavaScript, AJAX, HTML, CSS

Cloud & DevOps: AWS, Git, GitHub, CI/CD Pipelines, Docker, Kubernetes

Databases: Microsoft SQL Server, PostgreSQL, MongoDB, MySQL

Testing & Tools: JUnit, Mockito, Postman, IntelliJ IDEA, JIRA, MS Office

Education

Asansol Engineering College, West Bengal

2019 – 2023

Bachelor of Technology in Computer Science and Engineering

CGPA: 9.01

- **Oxford Public School, Ranchi** — Higher Secondary (CBSE) 2017 – 2018
Percentage: 86%
- **Carmel Convent School, Ranchi** — Secondary Certificate (ICSE) 2015 – 2016
Percentage: 87%

Projects

Money Manager Application | Java, Spring Boot, MySQL, REST API, Microservices, React JS

- Developed a **Spring Boot**-based backend application exposing **RESTful APIs** for managing users, transactions, categories, and budgets.
- Implemented **JWT-based authentication** and **role-based access control** to ensure secure access to financial data.
- Followed **Spring MVC layered architecture** (Controller, Service, Repository) to maintain clean and scalable backend design.
- Implemented budget limit validation and alerts to prevent overspending and improve expense tracking accuracy.
